I distinguish four types of corrections, in order of increasing seriousness:

- (Extra) Additional information that was not available at the time of writing, or that I did not know about.
- (Improve) Typographical issues, where what is written is still correct, but there is a nicer way of phrasing it, or I could choose a better symbol.
- (Typo) Typographical errors, where I have spelled a word wrongly, used the wrong symbol, and so on.
- (Error) Errors in proofs or statements.

When I give each correction, I will label it with one of these monikers.

- (i) (Error) p. 219. Table 2.2. There is a mistake in the penultimate line of this table, for $E_8(q)$ for $p = 5$. \mathbf{E}_0 is given as $\mathcal{H}_0 \cup \mathcal{B}_*$, but it should be $\mathcal{B}_0 \cup \mathcal{B}_*$. This case occurs in the sequel paper by Oliver–Ruiz, Table 4.2, where the correct set of essentials is given.
